

# COVID-19 VACCINE UPDATE

Presented by

**DR. LEWIS HSU**  
*Chief Medical Officer,  
SCDAA*

SCDAA's Medical and Research Advisory Committee recommends that sickle cell patients receive the COVID-19 vaccine when made available to them to mitigate the potentially dangerous interactions between COVID-19 and sickle cell.

Join SCDAA and Dr. Lewis Hsu, SCDAA chief medical officer, for this virtual event to receive an update on the COVID-19 vaccine and what it means for the sickle cell community. **Interested attendees should contact Linda Wilson, member services coordinator to register at [lwilson@sicklecelldisease.org](mailto:lwilson@sicklecelldisease.org).**

**February 16**  
**12 p.m. EST**  
**Online Event**
